Automatic Backup System

with BounceBack Ultimate Software & Instant PC Recovery

POWERFUL FEATURES

Easy to Use

The ABSplus does all the backup work for you. From easy setup to simple reminders and flexible features, the ABSplus with BounceBack Ultimate takes the headache out of backup and recovery.

Instant PC Recovery

With Instant PC Recovery you are back to work instantly, just restart from your ABS Plus and you are ready to go.

Quickly Restore Lost Files

The ABSplus offers immediate access to all previously backed up files. Just select the items to bring back and click on "Restore". If your system has crashed you are one click away from being up and running with Instant PC Recovery.

BounceBack™

Product Features	Description	BounceBack Ultimate
Instant PC Recovery	Externally run your system from your ABS in the event of a hard drive failure.	●
One Click Restore	Restore your system back to its last backed up state with only a single click.	●
QuickRestore™	Restore single files, folders quickly and easily.	●
Backup Sets	Create custom sets of data to backup and specify their multiple backup destinations.	●
Scheduling	Schedule backup sets by date and time, or upon connection.	●
Continuous Data Protection	Saves time by automatically backing up only those files that have been changed or newly created on a continuous basis.	●
Parallel Backup	Backup to different local or mapped network drive at the same time.	●
Native File Format	All data is backed up in its original file format for easy access and data sharing.	●
Synchronization	Synchronize data between multiple computers/hard drives.	●
Versioning	View and restore previously saved versions of files.	●
Drive Formatting	Automatically partition and format the ABS drive to match your computer's hard drive.	●
Encryption	Protect your valuable data with AES 128 or AES 256 encryption.	●
